Dear Paul,

RE: TO WHOM IT MAY CONCERN

We are a company which undertakes property development.

We advise are very happy to provide the following testimonial in respect of services provided by your firm for surveying and town planning work.

East Coast Surveys (Aust) have been the surveyors for MSO Holdings since July 2011. During this time they have provided Surveying and Town Planning services for two subdivision projects. Whenever we have had a need for quick response their professionalism and promptness cannot be questioned and is a credit to their firm. I would have no hesitation in recommending their services to anyone needing an honest, professional and very reliable Land Surveying Consultancy.

Yours Sincerely

Mark S Smith
Director
